

Animal Services Price List

All Prices Exclude GST

Mouse Genotyping Service Prices All PCRs are run with internal control PCR, contamination check, Wildtype and genes specific control DNA. The PCRs for all controls are included in the price listed. Urgent samples are charged at double the listed price.

Product Code	Product Name	Price AUD
Product Code		
Mouse Genotyping		
GMG 1 00001	Mouse Genotyping 1 PCR	\$7.38
GMG 1 00002	Mouse Genotyping 2 PCRs	\$9.38
GMG 1 00003	HRM SNP detection (any SNP also human)	\$8.60
GMG 1 00004	Copy Number Het/Hom Differentiation	\$75.00
GMG 1 00005	Project establishment for a new PCR (primer design, ordering of primers, testing of PCR with known controls or DNA of animal tissue with known genotypes)	\$120.00
Product Code		
Health Screen		
GMG 1 00007	Helicobacter ssp. (bilis, muridarum, hepaticus, typhlonius, rodentium)	\$25.00
GMG 1 00008	Pasteurella pneumotropica - (Jawetz, Heyl)	\$25.00
GMG 1 00009	Corynebacterium bovis	\$25.00
GMG 1 00010	Staphylococcus aureus	\$25.00
Product Code		
Cell Line Identification Service		
GMG 1 00013	Cell Line Identification (incl DNA extraction)	\$173.00
GMG 1 00014	Cell Line Identification (excl DNA extraction)	\$165.00
GMG 1 00015	Mycoplasma test (23s & 16s rRNA)	\$64.20
Product Code		
Sanger Sequencing and Fragment Analysis		
GMG 1 00016	Premix primer and PCR or Plasmid (NATA certified)	\$5.50
GMG 1 00017	Fragment Separation without size standard	\$4.20
GMG 1 00018	Fragment Separation with size standard	\$5.70
GMG 1 00019	cDNA transcription reaction per sample	\$15.12
GMG 1 00020	Plasmid Mix & SEQ (unidirectional) primer is provided or from GMG list	\$17.28
GMG 1 00021	PCR Mix & SEQ (bidirectional)	\$26.33
GMG 1 00022	PCR Mix & SEQ (bidirectional with analysis)	\$108.00
GMG 1 00023	PCR Mix & SEQ (bidirectional) with report	\$202.50
GMG 1 00024	Plasmid Mix & SEQ (unidirectional) primer needs to be ordered by GMG	\$24.28
GMG 1 00025	PCR Setup & SEQ (bidirectional without analysis)	\$60.75
